Title: Chilcotin Holidays Horseback Guest Ranch

the short description (up to 380 characters, preview on the public-facing website):

Chilcotin Holidays Horseback Guest Ranch is a unique Wilderness and Nature-based Tourism Business located in the Chilcotin Mountains 250km north of Vancouver, BC and is the foundation for an investment in 17 our profit centers. If you are ready to invest in and get involved, you may be eligible for the BC PNP's Entrepreneur Immigration stream, a pathway to permanent residence.

the long description (up to 2500 characters, use keywords: investment/partnership opportunity in British Columbia, Canada)

Chilcotin Holidays Ranch is a very attractive (literally and figuratively) investment/partnership opportunity in British Columbia, Canada. It was incorporated in 1990 taking over the ownership of an existing Canadian wilderness tourism business, which has been guiding since 1870.

Chilcotin Holidays operates a Guest Ranch and 25 wilderness huts within its exclusive 5,000km² licensed guiding area. The area serves as the foundation for a prime investment/partnership in 17 profit centres: Guest Ranch, ESL School, Horse Pack Trips, Wilderness Guide Training, Hiking, Mountain Biking, Fishing, Snowmobiling, Backcountry Skiing, Wildlife Viewing, Grizzly Viewing, Chalet Rental, Woodlot, Guide Outfitting, Bus Shuttle, Bushcraft and Survival Programs.

The small group, ranch and camp based trips take clients on customized wilderness adventures into the surrounding ranges of the South Chilcotin Mountains Park and Big Creek Park. Trips are guided by licensed guides trained at our Guide Training Centre.

The company's mission is to combine the world-class wilderness resources of Chilcotin with the exclusive licenses held by the Ranch for its guiding area, and develop a wilderness tourism destination that is a leader in the world.

Our goal at Chilcotin Holidays is to maximize the financial potential of our unique wilderness adventure products by using our exclusive licensing on 5,000km² of wild and beautiful South Chilcotin Mountains. Stewardship is a big part of every activity due to the nature of the business. Everything is intertwined in the business, for example: guide training provides staff; wilderness trips conduct research on flora and fauna; consumptive and non-consumptive use of the resource goes hand-in-hand with logging and eco-tours. We invest in staff and promote from within, self-sustainability is part of every aspects of the business.

Chilcotin Holidays has developed a 10 year growth strategy that will be funded by business revenue reinvested and equity capital raised from independent accredited investors. The growth strategy is based on attracting additional investors and/or managers to manage and grow the individual profit centres. Marketing and facility upgrades will grow together as the business grows.

If you are an entrepreneur who is ready to invest in and actively manage a business, you may be eligible for the British Columbia Provincial Nominee Program's Entrepreneur Immigration stream a pathway to permanent residence.

Live your dream, work your lifestyle!
